**The Uncertainty of Analysis** Timothy J. Reiss, 2018-10-18 The *Uncertainty of Analysis* pursues key issues raised in the author's earlier *Discourse of Modernism*, a ground-breaking work which focused attention on the nature of discourse and the ways in which one culturally dominant discursive class may be replaced by another. In this timely and provocative collection of his essays, Timothy J. Reiss shows how efforts to reconfirm the force and power of modernist, analytico-referential discourse in the late nineteenth and the twentieth centuries have actually brought to the fore internal contradictions, have made clear the problematic nature of the dominant discourse, and have precipitated the emergence of competing discourses. Reiss considers the explorations in foundational logic by Frege and Peirce; examinations of language and its relations to mind by Saussure, Greimas, and Chomsky; work in linguistic and scientific epistemology by Wittgenstein and Heisenberg; and the attempts to analyze the nature of society by Sartre and other Western Marxists. Reiss turns to some practitioners of literary criticism and theory who have sought to escape past constraints, and he points to what appear to be erroneous routes away from the dilemmas raised by these philosophers and critics.

**Affiliations** Jeffrey R. Di Leo, 2003-01-01 It's not what you know, but who you know. It's not what you do, but where you do it. Underlying such facile assertions, there lies at least a little truth—and, for academics, a complex web of relationships. Academic affiliations confer value and identity on individuals, disciplines, and institutions. They have a formative and formidable role in determining the status and self-image of academics and institutions. The subtleties and implications of such a system—in personal and professional terms—are the subject of this timely and thought-provoking volume. Here writers from all walks of academic life interweave personal experiences and critical insights to reveal the inner workings of affiliation in contemporary academic culture. These essays take up topics ranging from scholars' attitudes toward their affiliated institutions to publishing in academic journals, from the phenomenon of the academic star system to activism among tenured professors, from the perils of crossing disciplinary boundaries to the merits of mentoring through affiliation.

Together they offer a frank, firsthand view of the ways and means and the uses and abuses of affiliation in higher education today—a view that is sure to provoke discussion throughout academia.

The Social Production of Art Janet Wolff,1993-10 In *The Social Production of Art* Janet Wolff shows systematically that the arts can be understood adequate only in a sociological perspective and argues that art is the complex construction of a number of historical factors.

*Marxism and Deconstruction* Michael Ryan,2019-12-01 Originally published in 1982. Aside from Jacques Derrida's own references to the possible articulation between deconstruction and Marxism, the relationship between the two has remained largely unexplored. In *Marxism and Deconstruction*, Michael Ryan examines that multifaceted relationship but not through a mere comparison of two distinct and inviolable entities. Instead, he looks at both with an eye to identifying their common elements and reweaving them into a new theory of political practice. To accomplish his task, Ryan undertakes a detailed comparison of deconstruction and Marxism, relating deconstruction to the dialectical tradition in philosophy and demonstrating how deconstruction can be used in the critique of ideology. He is a forceful critic of both the politics of deconstruction and the metaphysical aspect of Marxism (as seen from a deconstructionist perspective). Besides offering the first book-length study of Derrida in this context, Ryan makes the first methodic attempt by an American scholar to apply deconstruction to domains beyond literature. He proposes a deconstructive Marxism, one lacking the metaphysical underpinnings of conservative scientific Marxist theory and employing deconstructive analysis both for Marxist political criticism and to further current anti-metaphysical developments within Marxism. *Marxism and Deconstruction* is an innovative and controversial contribution to the fields of literary criticism, philosophy, and political science.

*On the Aesthetics of Roman Ingarden* B. Dziemidok,P. McCormick,2012-12-06 Roman Ingarden's very extensive philosophical work in metaphysics, ontology, epistemology, and aesthetics continues to attract increasing attention both in Poland and in North America. Further work left uncompleted at his death is appearing. Major bibliographies of his work as well as of studies about his work are now in print. Ingarden's scattered articles on various questions in philosophy are being collected. And conferences devoted to his work are now held regularly. These diverse activities might suggest a similar diversity in Ingarden's philosophical legacy. But such a suggestion would be misleading. For interest in Ingarden's work has continued to centre on the one area which is arguably at the core of his achievement, namely the complex problems of aesthetics. In this field Ingarden seemed to pull together his various interests in ontology and epistemology especially. Here he brought those interests to focus on a set of issues that would occupy him creatively throughout the vicissitudes of his long and difficult scholarly life. Moreover, aesthetics is also the field where Ingarden perhaps most succeeded in orchestrating the many themes he owed to his phenomenological training while finally transposing the central issues into something original, something distinctively his own that philosophers can no longer identify as merely phenomenological. Ingarden's

aesthetics not surprisingly has captured the interest today of many scholars in different fields.

*Orwell and the Politics of Despair* Alok Rai, 1988 Drawing on a wide range of Orwell's writing Rai charts his progression from rebellion through reconciliation to despair.

The Indian Imagination NA NA, 2016-04-30 The Indian Imagination focuses on literary developments in English both in the colonial and postcolonial periods of Indian history. Six divergent writers - Aurobindo Ghose (Sri Aurobindo), Mulk Raj Anand, Balachandra Rajan, Nissim Ezekiel, Anita Desai, and Arun Joshi - represent a consciousness that has emerged from the confrontation between tradition and modernity. The colonial fantasy of British India was finally dissolved in the first half of this century, only to be succeeded by another fantasy, that of the reinstated sovereign nation-state. This study argues that the two phases of history - like the two phases of Indian writing in English - together represent the sociohistorical process of colonization and decolonization and the affirmation of identity.

The Dream and the Dialogue Alice Templeton, 1994 Adrienne Rich's poetry has long engaged critics in questions about the nature of poetic art, the character of poetic tradition, and the value of poetry as a political and cultural activity. At the same time, it has attracted many general readers, largely because it expresses the personal, social, and intellectual crises faced by feminists during the last thirty years. In this study, Alice Templeton looks at the ways in which feminist thinking has influenced Rich's poetics while, simultaneously, her poetic practice has shaped her feminist conceptions. Templeton begins by exploring the tensions between epic, eulogistic, and lyric claims made in the poems collected in *Diving into the Wreck* (1973). She then examines the strategies Rich uses in subsequent collections to test and refine her feminist thinking. Templeton focuses, in particular, on the dialogic moments of cultural participation that Rich's poetry provides for the poet and the reader. These moments, Templeton argues, can dispel myths of social determinism even as they implicate readers in an ethically charged communal bond. By demonstrating the contributions that Rich has made both to feminist thinking and to our ways of reading poetic tradition, *The Dream and the Dialogue* treats Rich as a poet of ideas and places her work solidly in the context of contemporary literary theory.--BOOK JACKET. **Literary Theory and Marxist Criticism** Samiran Kumar Paul,2020-12-10 The Communist Party's attitude toward art in this period was, in general, epiphenomenal of its economic policy. A resolution of 1925 voiced the party's refusal to sanction anyone's literary faction. This reflected the New Economic Policy (NEP) of a limited free-market economy. The period of the First Five-Year Plan (1928-1932) saw a more or less voluntary return to a more committed artistic posture, and during the second Five-Year Plan (1932-1936), this commitment was crystallized in the formation of a Writers' Union. The first congress of this union in 1934, featuring speeches by Maxim Gorky and Bukharin, officially adopted socialist realism, as defined primarily by Andrei Zhdanov (1896-1948). Aptly dubbed by Terry Eagleton as "Stalin's cultural thug," it was Zhdanov whose proscriptive shadow thenceforward fell over Soviet cultural affairs. Although Nikolai Bukharin's speech at the congress had attempted a synthesis of Formalist and sociological attitudes, premised on his assertion that within "the microcosm of the word is embedded the macrocosm of history," Bukharin was eventually to fall from his position as the leading theoretician of the party: his trial and execution, stemming from his political and economic differences with Stalin, were also symptomatic of the fact that Formalism soon became a sin once more. Bukharin had called for socialist realism to portray not reality "as it is" but rather as it exists in socialist imagination.
